DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Howard Popper on 4/14/2005.

The application has been amended as follows:

Claim 28 has been canceled.

Claim 25. (currently amended) An electrochromic laminate comprising the steps of:

a. placing [sealing material around perimeter of an] a solid electrolyte sheet [positioned] on a first substrate;

b. placing sealing material around said perimeter of said solid electrolyte sheet;

[b]c, covering the sheet with a second substrate that extends over the sealing material; and

[c]d. subjecting both the electrolyte sheet and the sealing material to simultaneously applied heat and pressure to adhere said solid electrolyte sheet

with said first and said second substrate.

Allowable Subject Matter

Claims 25-27, 29-32 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 25, with the allowable feature being a solid electrolyte sheet placed on the first substrate and subjecting both the electrolyte sheet and the sealing material to simultaneously applied heat and pressure to adhere said solid electrolyte sheet with said first and said second substrate. Therefore claims 25-27, 29-32 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
